

Twenty Five Years u3a

Written by Brian Atkinson - December 2025

Hillingdon U3A is here to stay
after 25 years it seems that way
It started out as something small
till other people heard the call
It grew by leaps and bounds
spreading from villages and towns
A small group here a small group there
like a fox springing from its lair
Languages, Photography, music and walks
Games, keep fit, and lots of Talks
Where will it end, will it ever
the answer is, maybe never
Looking forward never back
New subjects we never lack
New technology is a wonder
we must adapt we must not wander
Artificial intelligence might write this rhyme
It might even take over but not this time
So, before it does, let's not shed tears
But look forward to the next Twenty Five years.
